**SCORE 3**

## SCENE MANAGEMENT

KEY ELEMENT	UNSATISFACTORY	NEEDS IMPROVEMENT	SATISFACTORY	EXCELLENT	SCORE
<b>1. Scene survey and safety considerations</b>	Failed to detect any present hazards or ignored safety rules	Detected hazards present but not immediately	Performed in a safe manner with prompting	Identified hazards and performed in a safe manner	
<b>2. Situation report</b>	Failed to provide situation report	Provided situation report but failed to evaluate resources	Incorrectly evaluated resources	Provided situation report and evaluated resources correctly	
<b>3. Direction of team members</b>	Failed to provide direction to team members	Poor direction of team members and available resources	Management technique needs improvement	Functioned well as team leader, anticipated need for additional help	
<b>4. Interaction w/ patient, fire/ems and bystanders</b>	Rude, abrupt and/or unprofessional conduct	Lack of consideration or harsh conversation	Build a rapport with patients and bystanders	Obtained on scene report from fire/ems personnel	
				<b>TOTAL SCORE</b>	

## PATIENT ASSESSMENT/TREATMENT

<b>1. Perform a rapid primary assessment</b>	Omitted portions of patient assessment or failed to intervene when necessary	Performed primary but was slow to identify or intervene in a life threatening situation	Performed primary and treatment in a reasonable time	Demonstrate organized primary with rapid intervention	
<b>2. Correctly identify mechanism of injury and/or history of present illness</b>	Very disorganized patient assessment or failed to obtain pertinent medical or injury history	Obtained a adequate history but is slow in assessment or history gathering	Perform secondary and history in a reasonable time (Adequate is acceptable but not remarkable)	Gathered information efficiently even in difficult situations (i.e. emotionally charged situation)	
<b>3. Perform an appropriate physical exam when indicated</b>	Failed to perform a patient exam and/or findings are inaccurate	Inconsistent in performance of exam. Findings are accurate	Perform exam pertinent to patient's chief complaint. Findings are accurate	Perform exam as indicated and was able to detect subtle findings	
<b>4. Correctly make a transport decision</b>	Failed to identify patient status and transport mode	Recognize patient status but identified incorrect status	Used good judgment in status and mode of transportation	Excellent judgment regarding status and transport	
<b>5. Correctly treat identified patient problems</b>	Failed to prioritize treatment for identified problems			Provided appropriate and timely treatment for identified patient's problems	
				<b>TOTAL SCORE</b>	

## AIRWAY MAINTENANCE (Requires use of separate Airway form)

<b>Airway Control</b>	Failed to recognize need for airway intervention	Performed needed intervention but slow to recognize need or made multiple attempts	Performed needed interventions but could improve organization or technique	Successfully performed airway maneuver using good technique and organization	
				<b>TOTAL SCORE</b>	

**SCORE 0**

**SCORE 1**

**SCORE 2**

**SCORE 3**

**CIRCULATORY**

<b>IV Therapy</b>	Failed to establish an IV or used poor aseptic technique			Good technique and successful IV in a timely manner	
				<b>TOTAL SCORE</b>	

**MEDICATIONS/MEDICAL COMMAND**

<b>Medications</b>	Unfamiliar with medications or unable to calculate dosages		Adequate knowledge of medications and initiates standing orders in a timely manner	Remarkable knowledge of medications and appropriately contacts on-line medical command	
				<b>TOTAL SCORE</b>	

**AMBULANCE REPORT FORM DOCUMENTATION/COMMUNICATIONS**

<b>Run sheet Documentation</b>	Critical parts of history, Assessment or treatment left out	Needed help to write report	Good hx, assess & tx. Times missing on hospital copy	Good hx, assess, & tx. All med routes and sites All times noted	
<b>Communications With hospital</b>	Failed to include all Critical parts of report	Needed prompting from Senior ALS technician		Gave complete radio Report to hospital	
				<b>TOTAL SCORE</b>	

**EKG INTERPRETATION**

<b>Read and interpret EKG's</b>	Unable to correctly identify a standard or classic rhythms	Slow to recognize a standard rhythm	Identify classic rhythm both static and using oscilloscope	Identify even difficult rhythms both timely and accurately	
				<b>TOTAL SCORE</b>	

**Skills used that are not specifically listed on this form should be credited in the appropriate area (i.e. IO's under circulatory, Defib/Pacing under EKG's) and explained below.**
